- Inventory tracking and control
- Shipment preparation

Solutions for every type of client

For large businesses

SKU-level storage. Use our logistics infrastructure to store and handle your goods in our warehouses. We'll receive your products, put them on pallets, label and pack them, and store them in individually addressed bin locations.

On-site warehouse management. We'll run turnkey warehouse logistics at your own facility - storage, handling and delivery - and provide the staff, equipment and security services.

For online stores

Fulfillment. We'll take your goods into SKU-level storage, handle pre-sale preparation, prepare shipments to meet marketplace requirements, and deliver them.

Storage by handling unit (pallets or cartons). We'll unload and receive your goods by handling unit, without creating individual SKU records - for short-term storage from one day or long-term storage for one or three years.

For retail chains

Cross-docking. We'll receive goods from your suppliers at our warehouse, sort them into new shipments and send them out within one day, with no time in long-term storage.

Pallet delivery. Delivery to retail chains' distribution centers from a single pallet, within the required delivery window, including up to 24 hours of waiting time. Free storage at our warehouse for five days.

For dealers, distributors and suppliers

Logistics solutions. Custom logistics from experienced professionals. We handle storage and freight in-house, taking into account the specifics of your product and distribution model. The full range of warehousing and transport services from a single provider.

What we store

Auto parts · Furniture · Chemicals · Fast-moving consumer goods (FMCG) · Apparel and footwear · Industrial equipment · IT equipment · Home appliances

Why clients choose us

- One provider for everything: storage, warehouse handling, and transport across Russia and worldwide.
- More than 110,000 sq. m of warehouse space in 18 regions of Russia.
- Class A and B logistics warehouses.
- Dry, heated facilities with security, CCTV and fire protection systems.
- Ready-made industry solutions tailored to your product, with custom pricing.
- A dedicated account manager for all your logistics needs.
- An online dashboard to manage your inventory and shipments.
- IT integration with your inventory management system.
- Cargo insurance from leading insurers for the entire storage and transit period.

End-to-end storage and handling

We provide warehousing services for the safe storage, handling and preparation of goods for onward shipment. You get access to modern warehouses where receiving, putaway, inventory tracking and dispatch all follow established storage standards.

Our full range of warehouse operations lets us handle shipments of any size efficiently. We offer storage tracked by SKU or handling unit, track every stock movement and get your products ready to ship on time, keeping your supply chain running without interruption.

We handle loading and unloading, sorting, order picking, packing, labeling and palletizing. If needed, we'll add extra packaging to keep your goods safe in storage and in transit.

A tailored approach lets us find the best solution for your industry. Outsourcing your warehousing helps you cut logistics costs, process orders faster and keep goods secure at every stage of their journey.

How to get started

1. You submit a request.

2. We complete a questionnaire with you and prepare a tailored proposal.

3. You sign a contract for the selected service. An appendix sets out a custom rate card based on your volumes and services.

4. We prepare the warehouse to receive your goods.

5. Our driver collects your goods, or you deliver them to our warehouse yourself.

6. We provide the warehouse services set out in the contract.

7. If needed, we deliver your goods to the final recipient.

Pricing

We provide a custom quote based on the services you need and your storage and shipping volumes. Minimum charges apply.

Minimum charges

- **SKU-level storage:** Moscow and Moscow region - RUB 200,000/month; St. Petersburg and Leningrad region - RUB 150,000/month; other cities - RUB 100,000/month.
- **Storage by handling unit:** Moscow and St. Petersburg - from RUB 50,000/month; other cities - RUB 30,000/month.
- **Fulfillment:** RUB 50,000/month.
- **Cross-docking:** RUB 10,000 per service.

How to get a quote

Pricing is calculated for each client individually, based on the terms of your contract. Request a quote on our website or call 8 (800) 100-76-65.
